Soft Skills

- Teamwork
- Curiosity
- Analytical Thinking

Skills

- **Languages :** Python, Java, JavaScript, SQL
- **AI & Machine Learning :** LLM, RAG, Agents IA, LangChain, Prompt Engineering, XAI, MLOps
- **Frameworks :** FastAPI, React, PyTorch, OpenCV
- **Cloud & DevOps :** Docker, PostgreSQL, Git

Languages

- French (Native)
- English (TOEIC : 835/990)

Interests

- Chess – Top 3% worldwide on Chess.com
- Football

MAMADOU SAIDOU CHERIF DIALLO

AI Engineer | Generative AI | Machine Learning

Profile

Computer Engineering and Artificial Intelligence graduate with strong foundations in AI and hands-on expertise in Generative AI, LLM systems, and Machine Learning. Skilled in developing SaaS platforms, AI agents, and production-ready RAG systems. Seeking to contribute to the development of innovative, high-impact AI solutions.

Professional Experience

Holokia Feb 2026 – Jul 2026

Final-Year Internship – AI Software Engineer

- Developed a **LLM-based SaaS platform** for assessing AI maturity across organizations.
- Built a **FastAPI** backend with **PostgreSQL** and LLM workflow orchestration.
- Developed an **LLM-as-a-Judge benchmarking framework** and integrated a conversational AI assistant.
- Deployed the application using Docker, Render, and Netlify.

Holokia May 2025 – Sep 2025

Artificial Intelligence Intern

- Developed a **multilingual multimodal RAG system** and an AI document summarization agent.
- Collected and prepared Moroccan legal datasets through web scraping.
- Reduced RAG response latency from **12s to 7s**.
- Deployed the solution on Hugging Face using Docker and an MCP server.

CJC Group May 2024 – Jul 2024

Web Development Intern

- Developed responsive web applications and improved user experience.
- Implemented new features in collaboration with the technical team.

Education

HESTIM – École des Hautes Études des Sciences et Techniques d'Ingénierie et du Management

Oct 2021 – Jul 2026

- Engineering Degree in Computer Engineering & Artificial Intelligence (Graduated with High Honors)

Academic Projects

- **Credit Scoring Platform (MLOps):** End-to-end Machine Learning pipeline using XGBoost, Flask, Docker, and AWS - [GitHub Link](#)
- **Computer Vision Defect Detection:** Automated industrial defect classification using CNN and ResNet50 - [Colab Notebook](#)
- **Formula 1 Weather Analytics:** Interactive Streamlit dashboard analyzing weather impact on race performance- [Streamlit Demo](#)

Awards & Competitions

- **Best Academic Project Award** (2023–2024) – HESTIM
- Smart Devices (IoT) Competition Participant – HESTIM
- Kaggle: Participated in Jigsaw (NLP) and **ESA AI Security** competitions; **Top 54% among 3,700+ teams** (Jigsaw – Agile Community Rules Classification)
